

# A BONTÁS

1.

Bontsd a 10-et a minta alapján!

$$10 = 10 + 0 \quad 10 = 0 + 10$$

$$10 = 9 + \square$$

$$10 = \square + \square$$

$$10 = \square + \square$$

$$10 = \square + \square$$

$$10 = \square + \square$$

2.

Bontsd a 10-et a képek alapján!

$$10 = \square + \square$$

$$10 = \square + \square$$

$$10 = \square + \square$$

$$10 = \square + \square$$

$$10 = \square + \square$$

$$10 = \square + \square$$

$$10 = \square + \square$$

$$10 = \square + \square$$

3.

Pótold a hiányzó számokat!

$$a) \begin{aligned} 10 &= 1 + \square \\ 10 &= 9 + \square \\ 10 &= 6 + \square \\ 10 &= 4 + \square \end{aligned}$$

$$b) \begin{aligned} 10 &= 3 + \square \\ 10 &= 7 + \square \\ 10 &= 8 + \square \\ 10 &= 2 + \square \end{aligned}$$

$$c) \begin{aligned} 9 &= 4 + \square \\ 9 &= 5 + \square \\ 9 &= 2 + \square \\ 9 &= 1 + \square \end{aligned}$$

$$d) \begin{aligned} 8 &= 2 + \square \\ 8 &= 5 + \square \\ 8 &= 1 + \square \\ 8 &= 7 + \square \end{aligned}$$

4.

Hasonlítsd össze a bontott alakú számokat! Melyik több?  
Írd a műveletek közé a  $<$ ,  $>$ ,  $=$  jelet!

$$a) \quad 4 + 4 \quad \square \quad 3 + 5$$

$$b) \quad 10 - 1 \quad \square \quad 8 + 2$$

$$8 - 2 \quad \square \quad 7 + 1$$

$$9 - 7 \quad \square \quad 1 + 4$$

$$7 - 3 \quad \square \quad 2 + 7$$

$$2 + 7 \quad \square \quad 5 + 3$$

$$9 - 1 \quad \square \quad 4 + 3$$

$$10 - 6 \quad \square \quad 10 - 4$$
